

## Elijah and the Widow

Tragedy is a part of life in our sin-stained world. Children are not immune to experiencing tragedy. Poverty, dysfunctional family life, or something as severe as the loss of a parent are just a few of the traumatic experiences our children may be facing.

God showed His concern for those in need by sending the prophet Elijah to a widow and an orphan. Through Elijah, God would meet their basic needs in a time of distress (in this case, a famine created by drought). God cares for and loves children who have experienced tragedies such as poverty, the loss of a parent, or a grave illness. The real miracle is that we can have eternal life through a personal relationship with Jesus. All the troubles of this life pale in comparison to knowing Him (Jesus).

**Main Passage** | Kings 17

**Memory Verse** Psalm 68:5

A father of the fatherless and a champion of widows is God in His holy dwelling.
