

Queen Esther

The book of Esther is a marvelous account of how God actively works through history to care for His children. The events of Esther took place in the city of Susa, in the kingdom of Persia and during the reign of King Xerxes. The Jews were a minority in a foreign land. The Persian empire stretched from Greece in the west to India in the east and southward to include Egypt and part of the African east coast. It is against this backdrop that an unlikely queen was chosen. It was no accident, but part of God's plan to protect His people. This month our children will learn that can always trust God even when they have to do something that seems difficult or impossible.
